**Japan Technology database on DIALOG**

Access to Japan's scientific and technological research and development, business strategies and market trends is available on DIALOG in the *Japan Technology* database, file 582. The file contains English-language abstracts for articles from Japan's top 500 business, technical, and scientific journals. The database was available in 1987 on DIALOG and is now available again. SCAN C2C in Washington, DC, USA provides a document delivery service; ordering can be done online through DIALOG's DIALORDER facility.

**China News Bulletin**

In 1990 OTC added a weekly Chinese news bulletin, called *China Weekly News Online*, to its Dialcom electronic messaging network. The bulletin is produced each Monday in conjunction with ChinaTrade Business Services and draws material from about 100 newspapers, magazines, and journals from China and Hong Kong.
