

ONLINE NEWS

Asahi Shinbun Digital News Archive

Digital News Archive (DNA) is a database maintained by the Asahi Newspaper Company. The database includes some 1,500,000 news articles from the *Asahi Newspaper* covering the period from 1985 to 1995. The service started on April 25th 1996.

Searching the database is free at the moment; however, users must be equipped with a computer which is capable of reading and inputting Japanese script. Japanese terms must be used in searching the database. Pages are designed using HTML 3.0, so readers must also use Netscape version 1.0 or higher.

This is a unique opportunity to access the rich resources of this major newspaper.
